EIGHT PER CENT. SILVER LOAN

THE CHINESE IMPERIAL GOVERNMENT,

Authorized by Imperial Decree dated the 14th Day of the Ninth Moon of the Fourth Year of Kwong-Su (9th October, 1878.)

Haiquan Taels 1,750,000—Shanghai Taels 1,949,500 Stock.

In Bonds of Shanghai Taels 500 each, bearing Interest from 11th April, 1879.

The First Instalment of Interest being payable on 5th October, 1879, in HONGKONG and SHANGHAI.

The Bonds are redeemable at PAR WITHIN SIX YEARS (1884) by HALF-YEARLY (ACCORDING TO THE CHINESE CALENDAR) DRAWINGS.

PRINCIPAL AND INTEREST PAYABLE IN HONGKONG.

PRICE OF ISSUE—PAR.

THE HONGKONG AND SHANGHAI BANKING CORPORATION hereby

invites SUBSCRIPTIONS FOR SHANGHAI TAELS 1,787,000 of 8 PER CENT. Bonds at the Issue PRICE OF PAR, payable as follows:—

SHANGHAI TAELS 10 per cent. on application.
90 " 15 days after allotment.
100

The Bonds will bear interest at the rate of Shanghai Taels eight per cent. per annum, payable half-yearly according to the Chinese Calendar, as per annexed Schedule, at the Offices of the Hongkong and Shanghai Banking Corporation, in Hongkong (at current rate of Exchange for Demand Bills on Shanghai) and Shanghai.

The first payment of interest on the full amount of each Bond will be payable on 5th October, 1879, at the above-mentioned places.

The Bonds will be redeemed at par within six years (1884) by 11 half-yearly Drawings, commencing 5th October, 1879, of Shanghai Taels 162,500 each, the balance of the Loan, Shanghai Taels 162,000, being paid off on 9th August, 1884.

The Drawings will take place in Hongkong in February and August in each year, and the Bonds so drawn will be paid off at par on the respective dates specified in annexed Schedule at the Offices of the Hongkong and Shanghai Banking Corporation, in Hongkong (at current rate of Exchange for Demand Bills on Shanghai) and Shanghai, after which dates interest on the Bonds so drawn will cease.

The Loan has been authorized by an Imperial Decree, dated 9th of October, 1878.

The Loan, principal and interest, is specially secured by the hypothecation of the Imperial Maritime Customs' Revenue of the ports of Shanghai, Foochow, Canton, Ningpo and Hankow—the five Ports which have the largest Customs' Revenue of the Empire—to the extent necessary for the due payment of interest and repayment of principal of the said Loan.

The special hypothecation of Customs' Revenue to meet the charge of the present Loan is constituted by the deposit with the Hongkong and Shanghai Banking Corporation of Customs' Bonds, signed by the Viceroy and Governors of the respective Provinces in which the Ports referred to are situated, which Bonds will be held by the Bank in trust for the holders of this Loan. These Customs' Bonds will be received, in case of need, in payment of Chinese Customs' Duties.

Certified Translations of the Official Documents authorizing the Loan, may be inspected at the Office of the Hongkong and Shanghai Banking Corporation, Hongkong and Shanghai.

Default in payment of any instalment at the due date will render all previous payments liable to forfeiture.

If no allotment is made, the deposit will be returned in full; and if only a portion of the amount applied for is allotted, the balance of the deposit will be applied towards the payment of the final instalment.

Bonds to Bearer will be issued against Allotment Letters and Bankers' Receipts.

It is just possible that the Police authorities are not apprised of the unusual raid that is at present being carried on against the door-handles, bell-pulls, and other pieces of furniture generally found outside of foreign houses. About a dozen or more of such complaints have reached us during the last few days, and it is difficult to understand where a market can be found for the products of such miserable thefts. If the Police could only catch one or two of these contemptible pilferers, a sound lesson might be afforded them.

A CORRESPONDENT in the *Courier* contradicts the statement lately made by the *N. O. D. News* regarding the proposed Cotton mill, thus:—"Some one has been hoaxing the editor of the *N. O. Daily News* about the Cotton Co.'s affairs. I happen to know that the site and premises of the factory have all been settled, and a large sum of money paid on account of machinery required, so that matters are not so desperate; nor are the promoters troubled about any article, however deprecatory, appearing in either the *N. O. Daily News* or the Chinese papers."

The Shanghai *Courier* understands that a private despatch has been received in Shanghai, announcing that the investigations of the Committee at Wai gon in regard to the affairs of the United States Consulate here, have resulted in the vindication of Mr. Seward.

The same paper says it is stated that, as soon as General Krijanovsky succeeds General Kaufmann in the Governorship of Turkistan, Central Asia will be thrown open by the Russian authorities to Europeans, and the present prohibition against Englishmen passing beyond Orenburg will be removed.

The public notices of the new Silver Loan have served as a "red rag" to Mr. Livingston of Shanghai, who it seems asserted in his last commercial publication that the translations of the documents had not been certified by any one. The *Courier* contains a letter from Messrs E. Major and W. D. Spence which flatly contradicts Mr. Livingston's assertion, the certificate having been given, after careful comparison of the translation, by the two gentlemen named. A statement also appears, on authority in the same paper, to the effect that the translations referred to by Mr. Livingston were the very copies certified to by Messrs Major and Spence. On this occasion Mr. Livingston has evidently scored a rather bad ricochet.

The *Overland China Mail*, for to-morrow's English Mail (12 pp.), contains:—

LARCENIES.

U Aha, a coolie, was convicted of stealing some fish value for about 100 cash, from a boat on the beach at Yow-ma-ti, early on the morning of the 12th instant. When arrested, prisoner was found to have had a knife in his possession, which he threw away. He was identified as having been convicted in 1876 of having possession of burglary implements. His Worship sentenced him on this occasion to six months' imprisonment, the first and last 14 days of which to be in solitary confinement and the rest with hard labour, and further on the day previous to his release from Gaol, to be exposed publicly for six hours in the stocks.

Cheng An, a coolie, was sent to two months' hard labour for stealing 63. Prisoner was on a visit to a friend, and taking advantage of his friend's absence in the kitchen to make tea for him, took the money which he found on the table.

Tem Atan, another coolie, a fellow-lodger of one Teng Achong, a gardener, thought proper to relieve his friend of five pieces of clothing during his friend's

temporary absence from the house. The prisoner admitted taking two of the pieces of clothing only. His Worship sentenced him to two months' imprisonment with hard labour.

THE NOTED WONG ASAC.

This man was charged with returning from banishment, which offence he admitted. His Worship said that he could have dealt with the prisoner himself and given him 12 months' hard labour, but as he thought there was some mistake in the Banishment Warrant, he would rather send the case to the Superior Court. The prisoner was accordingly committed for trial at the Criminal Sessions of the Supreme Court.

DECREE OF THE "OPTIM ORDINANCE." Wong Aho, a widow, residing in house No. 60 Third Street was summoned upon the complaint of Kung Ato, an Excise Officer, for retailing prepared opium without a license. Sergeant Perry proved the execution of a search warrant. He found in the defendant's house only two baskets of opium dross, and certain utensils which had recently contained prepared opium, as also some opium smoking apparatus. The defendant in her defence said that the Excise Officer went to her house on the 10th instant and asked for the loan of an opium pipe with which he smoked opium in her house, and that a man who came with the Excise Officer began to break her box; she remonstrated with him, upon which a quarrel ensued. She denied all knowledge of the baskets of opium dross. The defendant could not bring evidence to support her defence. His Worship inflicted a fine of \$50 or one month's imprisonment. The defendant was unable to pay the fine and was committed to Gaol.

GENERAL BUSINESS. The other cases before His Worship were of a trivial nature and consisted chiefly of summonses issued at the instance of the Inspectors of Nuisances for obstruction of Roadway &c.

CORRESPONDENCE.

To the Editor of the "CHINA MAIL."

March 13, 1879.

SIR,—Who was St. Patrick? I was asked to-day by one of my friends, and from a peculiar intonation of voice, I may be allowed to say that I have a very strong suspicion that he hails from the Emerald Isle, and as I don't, I thought his question rather strange. Sure, says I, you know that very simple and elementary Biographical question; and if you don't, you sapling, you deserve to be sent back to school again. I told him, however, that "St. Patrick was a gentleman, (a Scotchman),

Who came of decent people,
He built a church in Dublin town
And on it put a steeple;
His father was a Gallagher,
His mother was a Brady,
His aunt was an O'Shanghnessy,
His uncle an O'Grady."

The above quotation I gave from memory, and therefore may not be quite correct.

I then referred to the Peerage Burke's (not Edmund's), and could find nothing bearing on the subject.

I found subsequently that there was a good deal of evidence in favour of him being a native of Scotland, having been born in a small village on the banks of the Clyde. I am glad that Scotland gave such a reformer to Ireland.

But Mr. Editor, can you enlighten me on the following. Whether it is the birth or death of St. Patrick which I am invited to celebrate at the Reception to be held at Government House on Monday next? Had St. George or St. Andrew been in the question, I might have been more clear on the subject.

Yours,
WHO'S WHO.

China.

AMOI.

It seems that when the German corvette *Fregate* came into port on the 17th Dec. last, she slightly touched a fishing boat, which was anchored in the fair way and had no one on deck, all hands being below asleep, tore some nets, and broke one of the floating spars to which the nets are attached. The fisher sued the Commander for exorbitant damages in the Consulate, but ultimately accepted a spar and a coil of rope, as advised by the Chinese official who inspected the damaged articles.

We learn that the Chinese authorities were in consequence of this occurrence, asked to issue orders to the fishermen forbidding them to lay their nets or anchor in the fair way of steamers, and ordering them to exhibit flags or other marks, wherever else they might place their fishing stakes and boats, so that the fishermen would plainly understand, that no claims for damages by collisions would be allowed unless these precautions had been adopted by them.

A proclamation containing the rules asked for was issued on the 8th day of the 12th moon (8th Dec.), but as the captains reporting themselves at the Consulate had never seen any of those signals nor had found the fair way less obstructed than formerly, the authorities have again been communicated with, and have promised that the owners of fish-shops shall be instructed to explain to the fishermen with whom they have dealings, what is required of them, and fresh proclamations on the subject will be posted.

Captains could greatly assist the efforts made to remove this obstruction to shipping, if they reported each case of non-compliance with the above regulations, that comes to their notice, to their respective Consulates.—*Gazette*.

FOOTNOTES.

(Herald, March 6th.)

The Chinese Revenue Cruiser *Ling Feng* is at present undergoing extensive repairs, under the superintendence of the Foochow Dock Company.

Mr. Tong-King-Sing, the managing director of the China Merchant's Steam Navigation Company, who lately arrived here from Shanghai on an official visit, left per *Tah Yew* yesterday.

H. E. Ling Jih-chang, the Imperial Commissioner charged with the settlement of the Wuh-shih-shan case, is we regret to hear suddenly indisposed. He was, we understand, visited by Doctor Stewart on Tuesday last.

A fire occurred last evening in the block of Chinese houses on the Customs Road,

near Livingstone Terrace. Fortunately, there was a good supply of water at hand, and the flames were extinguished before any material damage had been done.

The English Church Mission will, we hear, be served with notice of action in the Wuh-shih-shan case to-morrow. The defendants are, we believe, entitled to an interval of twenty-four days between the date of serving notice and the hearing of the cause.

The feng-shui-ites are, we understand, about to publish another pamphlet against the Wuh-shih-shan outrage. We at least hope it will be more truthful than their former production. But in any case, statements emanating from this respectable coterie of incendiaries should be properly weighed and sifted. It is well-known that the official income of a command of public money which they fondly believe will enable them to create an unsound public opinion (favourable to their nefarious designs) amongst foreigners, and in this way defeat the ends of justice. In fact, they desire to influence the foreign mercantile mind against missionaries; and then—after they have established a precedent case,—will come the deluge.

NINGPO.

March 6th.

Last night an entertainment consisting of a lecture on "English Vocal Music," illustrated with songs, was given in the general office of the Customs House, by Octavius Johnson, Esq., of H.B.M.'s Consular Service. He was supported by two talented ladies who have before rendered excellent service. As Mr. Johnson had a great deal of singing to do, Mr. Edmund Wheatley was requested to read the lecture for him. After a lively introductory speech Mr. Wheatley commenced the essay, which began by showing that there is a great love of music amongst the English people, although many deny that this is the case. Music, as now understood, may be said only to have come into existence in the 15th century, when it first appeared in Italy. The music of the Continental composers being written for the Roman Church, was, on this account, too florid to suit the simpler tastes of the Protestants. Our early secular music consists mostly of ballads, of which "The Friar of Orders Grey" was given as a sample. As a specimen of purely popular music, "Come, lasses and lads" was most admirably given by a lady amateur, followed by the sentimental songs, "Once I loved a maiden fair" and "Drink to me only with thine eyes" and "Heartie of Oak," "Jolly Young Waterman," and the "British Grenadiers," having been selected as types of the naval and military songs of England, were rendered in a spirited and highly effective manner. After instituting a short comparison between the old and modern schools of English vocal music, came Arthur Sullivan's lullaby "Birds in the Night," while the "Mule-herd's Song," from the "Rose of Castile," which was encored, brought the entertainment to a close. Great praise was due to the accomplished lady whose excellent accompaniments contributed so much to the success of the evening. A hearty vote of thanks was tendered to the ladies and gentlemen who had furnished such an intellectual treat to our Ningpo community.—*Courier*.

Japan.

(Gazette.)

Yesterday, the 3rd instant, the Japanese corvette *Tanaka Kwan*, left Shinagawa for Singapore.

The Japanese war vessel *Nishin Kwan* is expected to leave Yokohama for Singapore on or about the 10th instant.

A survey between Takasaki of Gumbia Ken and Tokio has been commenced for the purpose of constructing a railway. The expenses are estimated at 490,000 yen. Rumour says that this cost will be defrayed out of the National Loan.

H. E. Takasaki, Governor of Okayama Ken, established an earthenware manufactory in the 7th year of Meiji (1876) for the purpose of employing the Shizoku of that Ken. The business has been more successful than was expected, owing to the skill of the officers in charge and of the manufacturers. Some of the earthenware manufactured in that establishment was sent to the Paris Exhibition, where some pieces which originally cost seventeen yen were sold for fifty yen. Thus great credit having been gained among foreigners for this ware, now many orders are sent by foreign residents at Kobe and Yokohama and the establishment is now working to greater advantage than ever.

A raid on a Chinese gambling house was made a few nights ago, resulting in the capture of seventy-one persons. From what we can learn it appears the Japanese detective force received information that a large meeting of gamblers was to take place on a certain night; and a large force of constables was stationed at the various approaches to the house. Ten detectives contrived to gain admission into the room, where about two hundred persons were assembled. The detectives' presence soon became known, and a precipitate retreat of the gamblers was the result. As they rushed out of the house they fell into the hands of the constables. Seventy-one were arrested in this way. As a constable was leaving the house a large basket was in his way; he gave it a kick, knocked it over, and up jumped a Chinaman, who was quickly secured.

The blow on Saturday night and Sunday morning was, we believe, the strongest ever experienced at this time of the year in Kobe. The damage done was fortunately not great, being confined for the most part to injury to fences and plaster-work. The Protestant Church probably suffered the most, the injuries to the roof being so serious that the building was rendered unserviceable. The usual Sunday services were conducted in the Municipal Hall, the piano belonging to the Choral Society being called into requisition, in place of the harmonium.

We have no damage to report in the harbour, but hear that a vessel was for some time in jeopardy from the force of the wind, although fairly well ballasted. The crew were standing by we are told ready to cut away the masts if necessary, but fortunately the occasion did not arise, and the ship suffered no damage. Even as we write, the weather is far from settled, and we seem to have got the equinoctial gales considerably in advance this year.—*Mayo News*.

(Herald, May 1.)

The preparation of black tea is being steadily developed in Osaka, where the Mitsui Bussan Kaisha has a manufactory already extensive, but which requires ad-

ditions. The number of persons there making themselves acquainted with the details of the work is said to be daily increasing. A large quantity (three quarters of a million) is reported by the *Osaka Asahi* to have been received in Kobe from various districts during the month of January, the above-mentioned company contributing seventy per cent. of the whole.

During Saturday night last and part of Sunday this port was visited by a severe gale from the North-west. At the height of the blow, which occurred about noon, some danger to the shipping was apprehended. The men of war had prepared for this. Most of them struck topgallant-masts and yards, and they and the merchant steamers had steam up. No casualty occurred in harbour, however, with the exception of a trifling damage sustained by the little schooner *Tori*, which dragging her anchors was brought for a time into partial collision with the English *Hatoba*. A few pilings were blown down in the Settlement and on the bluff, where also the roofs of some houses, and a few verandahs suffered. The top of one verandah in a very exposed spot was torn off, and carried by the wind across and over the roof, dislodging in its course a number of the tiles. At sunset the storm had subsided to a light breeze.

Japanese newspapers report an outrage committed upon Mr. Sutton, R.N., in the employ of the Kaigunsho. While he was lying ill in bed his house was broken into upon two occasions by a man masked and armed. As the intruder was disturbed he made away without stealing anything or doing any injury. A guard has been set over the house to prevent the repetition of such an insult.

In the case J. Ph. Von Hemert vs. John Grigor, the jury gave a verdict for the plaintiff in the amount of \$10,514.60, that is the amount claimed less \$742.60 for 3 per cent. commission, and \$567.00 anticipated legal expenses, without taking into consideration the value of the 18 bonds held by the defendant, worth \$87.50 each, total \$1,575.

The *Sumanoura Maru* having encountered heavy weather, probably last Sunday's gale, was dismasted and disabled. The *Tokio Maru*, which left here last Wednesday, fell in with her and brought her safely into Oshima, to which port the *Niyata Maru* has been sent from Kobe for the purpose of towing her to Yokohama.

H. E. Kawamura and Mr. Reed, M.P., arrived in Kobe, on their return from the south, on the 16th ultimo. They proceeded to Osaka on the afternoon of the same day and were entertained in a building provided for the purpose in the grounds of the Mint. The next two days were devoted to showing Mr. Reed the lions of Osaka.

The Chinese Minister resident in Japan, was lately presented by the Emperor of China with an annual pension, for life, of 6,000 *kuan* (or 260 *koku*) of rice, in reward for his meritorious services (?)

It is said that the men-of-war *Hyiei-Kwan* and *Hongo-Kwan* are now making preparations for a voyage to Loohoo. It is rumoured that this is for the purpose of protecting the Japanese on the islands, until the ultimate reply from the *Hani*, to the message recently delivered to him by Matsuda Michiyuki, is received. It is also reported that half a regiment of the garrison troops, now stationed in Kagoshima, will proceed in the *Hyiei*.

Kurushima, a nobleman, aged 25, residing at Shin-machi, Shiba, Tokio, was murdered on the night of 23rd ultimo, at his residence by one Bunnosuke, a former servant of his. The murderer afterwards killed the nobleman's mistress and wounded some three persons. Thinking that he had done about enough mischief for one night he then shot himself in the throat and died on the spot.

George Thompson, who wounded Ensign Yumura at the Horner race on the occasion of the celebration at the Shokomachi Temple, on the 27th January, has been sentenced to 14 days' imprisonment by the British Consul, at Tokio.

The Aikokusha (Patriotic Society) of Osaka, it is said, contemplate starting a newspaper shortly, and parties have arrived in Tokio to purchase the necessary plant. A special meeting of the Society will be held about the middle of March. Agencies will be opened in fourteen different *ken*s. The number of members now on the roll of the society is said to be 13,700.

A letter recently received from Kyoto says, that a building in the temple ground of Ken-nin-ji has been elegantly fitted up for the accommodation of Mr. Reed and his son.

The *Nichi Nichi Shinbun* has issued the first number of a monthly market review for the use of merchants. It is called the *Soda Koku Getsupu*.

From the returns of the Telegraph Department, we learn that from July 1877 to June 1878, there were despatched over the wires 1,046,442 messages in all, for which was received \$343,017.44.

The following has been extracted from the report of the Customs Bureau of the Finance Department giving the total Imports and Exports, at all the open ports from 1st July to 31st December, 1878.

Communication between the central Police Station in Sakakubo, the Prison in Kobe, and the Police stations in Takashimacho and Kanagawa, has already been made complete by means of the Telephone. It is now rumoured that communication, by the same means, is to be extended to the stations on the Bluff Negishi and Matsukagecho.

Manila.

(Translated from our Manila Exchange.)

The *Gazette* of the 1st March contains the condition of tenders for the laying down of the submarine telegraph cable to connect Manila with Hongkong, which tenders were to be closed on the 12th ultimo at Madrid, and the news of the result of which will probably reach here in the *Reina Mercedes*, expected here on the second fortnight of the present month, if not previously announced by a telegram.

The cable, according to the stipulations of the tenders, to be laid from the western coast of Luzon (Cape Bojeador or Cape Bolinao) to Hongkong. The distance from Cape Bojeador to Hongkong taken from

the level of the sea, is 420 miles more or less; and that from Cape Bolinao to Hongkong is 475 miles.

It is trifling to contemplate the mortality which has occurred in the province of Iloilo during the year 1878. The mortality in 1876 was something more than 9,000, and in 1877 it increased to 13,214; but during the year 1878, no less than 29,042 persons died in that province. The cause which tended to increase the death-rate in such a large scale is worthy of some attention from the Government, and immediate steps must be taken to prevent the recurrence of this sad result. Persons with great experience of this province have assured us that there is already indications that the present year will also prove to be a calamitous one, because neither has the last crop turned out so abundant as was expected, nor have the people enough money to support themselves with ease, while at the same time they have not yet quite recovered from the misery caused by the calamity of last year.

The Customs collection during February last at Manila amounted to \$80,185.17, against \$112,974.30 same time last year, being less this year by \$32,789.22.

The value of the merchandise subject to export duty exported during February last from Manila, amounted to \$788,706.

A bull fight was arranged to take place at Cavite on the 9th March, the proceeds of the entertainment being intended for a charitable institution. Rumours say that this entertainment will be followed shortly by another of a similar kind at Manila.

The trade at Iloilo during the latter half of 1878 has been somewhat brisk, as can be seen by the return of duties collected by the Customs at that port, during the above mentioned period:—On Imports, \$5,392.72; on Navigation duty, \$4,266.60; Consolation, \$6.40; making a total of \$99,785.43 collected during 1878, as against \$20,643.37 during the corresponding period in 1877.

About 7.30 o'clock on the evening of Wednesday a band of armed thieves entered, a house, in the parish of Jolo, occupied by one Agustina Iguaño, who they succeeded in making away with a large sum of money and over \$1,000 value in jewellery. The Civil Guard of the place on hearing of the attack hastened to the spot, but the robbers resisted and fired on the guards. The officers of the peace returned the compliment in the same manner, and six of the miscreants were brought down, three shot dead and three were severely wounded. A portion of the stolen property was found on the persons of the prisoners.

A critical attack is said to have been committed by two boats manned by 17 men on seven fishing boats, off Paranaque or Bacoor, on the morning of the 2nd and 3rd o'clock in the morning. The fishermen all escaped with their lives by swimming, save one, who was drowned, having received a cut on the head. The pirates sunk all the fishing boats.

A letter from Sooloo says that on the 9th ultimo, a Moro—one of those fanatics who occasionally run amok—armed with a lance went into the market place, where he killed two infantry soldiers, severely wounding two others, an engineer, and a corporal of the navy belonging to the war schooner *Santa Filomena*, who died from the effects of the wound on being taken on board, without having time to receive medical aid; but the murderer almost immediately paid the penalty with his life at the hands of a seaman belonging to the gunboat *Paragua*. The British barque *Maid of Judah* arrived at Manila on the 8th March from Takow with a general cargo.

The British barque *John Nicholson* left Manila for Quezonland on the 8th March.

The freight steamers at Manila up to the 8th March are as follow:—French barque *Madagascar*, for Omdur, to order, 400 tons coffee and 150 tons hemp, at private rates. Br. q. *Flying Swallow*, for London, 700 tons dry sugar at \$1.10 per ton, and hemp at \$2. Brit. ship *George Thompson*, for London, 900/1000 tons dry sugar, at \$1.10 per ton, and hemp at \$2 a 22.2.6. Brit. ship *Elizabeth Nicholson*, for Liverpool, 850 tons wet sugar at \$1.12.6 per ton, and asks \$2.5 for hemp. British barque *Maid of Judah*, for Sydney, with China sugar, she requires hemp to complete her cargo.

Singapore.

The Colonial schooner *Horsburg* is, the *Times* regrets to learn, a complete wreck, little hope being entertained that the efforts which are being made to raise her will be successful. How a schooner, whose captain should be quite cognizant of the existence of all the dangers which threaten vessels around the harbour, should have come to grief on the "Cyrene" Shoal is a mystery; the official inquiry which doubtless will be held into the circumstances of her stranding may probably throw some light on the matter.

The *Freight Gazette* of the 28th instant gives the following account of the fire in Binang on the 26th ultimo which destroyed *Sans Souci*:—

The slumbers of the inhabitants of Penang were disturbed at about 12.45 a.m. yesterday by the alarming cry of "fire," and one required no information as to the direction of the conflagration, for the greater portion of the town was illuminated by the glare from it, so people had only to steer a direct course in the direction of Northam Road to fetch the scene, which turned out to be "Sans Souci," the residence of the Manager of the Chartered Bank, and by the time the earliest appeared on the scene it was evident that all hopes of saving the building itself were at an end. How the fire originated can only be conjectured from the fact that, at about 10.30 p.m. on the 26th, some fire-works were let off, viz a fire balloon in front of the house; it floated away hillwards and never approached the roof; a rocket was subsequently let off on the eaves of the building, which careered high above one corner of the building. Some droppings from this may have fallen on the building but nothing more over could have reached the roof.

About two hours after, however, it was discovered that the North East corner was on fire, and steps were immediately taken to extinguish it by the inmates. Mr. Tennant (one of them) mounting it and endeavouring with the small quantity of water that could be handed up to him from below to check the progress of the flames. This was soon found to be a useless task, the roof being an attic one; the furious element soon took charge and defied all attempts to stay its progress. Mr. Marshall, the Accountant of the Bank, gave the alarm at the nearest Police station, and it is but fair to say that the members of that body were promptly

on the spot with their engines, as also was the Military from the Fort under Lieutenant Moyers and Lyall. We regret we cannot say the same regarding the occupants of the Barracks. Before any of this assistance could have reached, however, all that could be saved out of the building had been got out of it, and burn the structure did thereafter. It went off like so much tinder, and before 2 a.m., the roof, ceiling and top gear was a thing of the past, whilst below the process of demolition was almost completed by 4 a.m. Of course there was a good deal of flickering and smouldering thereafter, and it is still going on. It was fortunate indeed that the buildings connected with it were tiled, and that the house was a detached one, as otherwise there would have been a fearful conflagration—the neighbouring houses on the town side being mostly thatched for once the Police thoroughly did their duty and the small force of Military that were present deserve great praise for the manner in which they exerted themselves under remarkably disadvantageous circumstances.

LOSS OF THE "TAIWAN."

FINDING OF THE COURT OF INQUIRY.

A Naval Court was held at the British Consulate at Amoy on the 6th and 7th March, to inquire into the circumstances attending the loss of the British steamer *Taiwan*. The Court was composed as follows:—Chal. Alabaster, H.M. Consul; W. M. Carey, Lieut. R.N.; F. J. L. Thomas, Lieut. R.N.; George Simons, master *Inheritance*; Charles Brown, master *Inheritance*; W. de B. Steward, Clerk of the Court. The following is the finding of the Court:—

That the *Taiwan* was lost on the morning of the 14th February on a reef W.N.W. of Bird Island, lat. 23.44 N., long. 119.35 E. That the accident was attributable to the usual set of the current to the Southward in the N.E. monsoon not having been experienced on this occasion, the course having been shaped to allow for this when a slight current to the Northward was afterwards found.

That the master is to blame for not making greater efforts to ascertain his position after nearly running his distance to Fisher Island by use of the patent log.

That further care should have been taken to save the passengers' baggage.

That the heaving of the log on board the *Taiwan* was very slackly attended to.

That the captain made every endeavour to save the ship and cargo after the wreck. The Court reprimands the master and returns him his certificate.

No blame appears to attach to the other officers or crew.

The Court further orders that the Clerk of the Court and the nautical assessors be allowed the usual fees.

H.B.M. Consulate, Amoy, 7th March, 1878.

COMMERCIAL.

March 14.

Subsequent to the dispatch of last mail the rates for Bengal Opium stiffened and advanced, by the concentration of the stocks. Upon the receipt, however, of the month's supply lower rates were accepted, and subsequently both descriptions have been dealt in on still easier terms. The bulk of the fortnight's business has been done since the arrival of the steamers. The present quotations are \$75 to \$77½ for Patna, and \$94½ to \$96 for Benares.

The receipts for the month, so far, show an aggregate of 3,761 chests, against 3,974 chests to the corresponding date last year. During the interval, and notice some 900 chests have been taken by the local consumers, against a similar quantity at the corresponding period

CHINA SEA.

SHANGHAI DISTRICT.—WOOSUNG RIVER.

WOOSUNG INNER BAR SIGNALS.

NOTICE is hereby given that on and after the 31st March, 1879, Geometrical Signals will be substituted for the flags now in use at the Woosung Inner Bar Station, showing the depth of water on the Bar during the day.

An explanatory diagram, showing the signals which indicate the depth of water from 10 feet to 24 feet and which will show the same in approaching the signal station both from Shanghai and from seaward, is added herewith.

To indicate a rising tide a ball will be hoisted at the mast-head.

In case of there being greater or less depths of water than here given, the number of feet will be signalled by the "Universal Code of Signals" at the mast-head, and the half feet by a red and white flag at the yard-arm.

By order of the Inspector-General of Customs.

GERALD E. WELLESLEY,

Acting Engineer-in-Chief.
